

my MED-id Saves Lives!

my **MED-id**™

my Medical Emergency Data identification

Yellow vinyl pocket attaches to fridge:

- Yellow pocket contains resident's current medical history.
- First responders are trained to locate the yellow pocket on fridge and use myMED-id info for life-saving treatment.
- *my* MED-id Saves Lives!

my **MED-id** consists of a yellow vinyl pocket case & updatable medical history form. Placed on the refrigerator door, it is easily found by first responders during an emergency.

Pocket and form approved for use by County Fire / EMS.

*Promote your company every time the fridge is opened—
Attach your label to the front of the pocket!*
